

Seasonal Maintenance Packages

LET RAINSCAPES KEEP YOUR IRRIGATION SYSTEM WORKING PROPERLY

While service calls are available for customers on an as-needed basis, homeowners should consider protecting their landscape investments with the help of one of Rainscapes' seasonal maintenance packages. These money-saving packages include spring start-up, winterization, backflow preventer testing, in-season system checkups, and discounts on materials as well as lawn care.

Purchasing a seasonal maintenance package allows Rainscapes to resolve any system issues quickly and proactively, preventing emergency service calls. These comprehensive seasonal maintenance packages ensure your system will be checked in-season by a Rainscapes staff professional to make sure there are no problems with the system's function or coverage.

Package Options

	Bronze	Silver	Gold
Description	Experience ease and convenience with required yearly irrigation maintenance and enjoy the automatic money savings included in this entry level package.	This is our most popular package as it includes automatic seasonal maintenance while saving both money and water, allowing for maximum efficiency of your system.	Need your system checked monthly? The gold package is perfect as it allows for monthly inspections June through September as well as yearly maintenance.
